Innovative 4-Stroke Performance Technology

A MESSAGE FROM THE BROWN BROTHERS

Our first BBR catalog was printed in 1996. It was a total of 8 pages, and showed about 20 different products we offered.

Even though we did not have a big selection back then, each one of our components was unique and hand-crafted with great attention to detail. Billet machined parts were carved out of blocks of aluminum on our first CNC milling machines, and we made a small number of fabricated components like aluminum subframes, swingarms, and exhaust systems. Thankfully, the motocross industry took notice of what we were doing, and the phones started ringing. Early on, our mission was simple: 1.) Build innovative 4-stroke off-road products, 2.) Focus on the "fun-factor", and 3.) Take great care of our customers

Today, we offer over 1,200 different items, and sell to customers in over 30 countries. Our new 25,000 square-foot manufacturing facility is capable of building almost anything we dream up, from the smallest components to our complete custom BBR Perimeter Framed race bikes.

We hope you enjoy this BBR performance catalog. You will find many new items including our V3 Perimeter Frame Kits, D2 Exhaust Systems, U-Flow Filters, and more. We also have a complete line of new products for the Kawasaki KLX140, Suzuki DRZ70 and Yamaha TTR110, as well as an expanded line for many of the other four-stroke playbikes we sell.

A lot has changed since our first 8-page catalog, but our mission remains the same. Innovation, fun, and a focus on the customer still make up the foundation of our business. We are grateful for the opportunity to do what we love. We are also grateful for the many customers, friends and business partners we have come to know along the way. Most important, we thank our dedicated employees who work with us to manufacture the very best parts money can buy.

We look forward to working with you,

Duane, Chris and Brent Brown

D2™

BBR introduces the next generation in D-Section exhaust systems, the D2. This all new design incorporates an air-craft quality stainless steel header and mid-pipe that has been tuned specifically to optimize performance and power gains. An all new, lightweight "D" profile muffler is used to dramatically reduce weight on all models. BBR's unique "D" muffler also allows for maximum tire clearance and packing volume. For all applications, the new BBR D2, come as complete systems including header and muffler. A USDA Forest Service approved spark arrester is included. If you need to reduce the dB level BBR offers an optional Quiet Insert that will keep the neighbors happy.

- Thin-wall stainless steel header and mid-pipe
- Lightweight 6061 aluminum muffler
- Stainless steel heat shield
- All stainless steel hardware through-out
- USDA Forest Service approved spark arrester (removable)
- All applications are complete systems including header and muffler

XR/CRF 50

BBR XR/CRF50 Aluminum Perimeter Frame Kit™

The BBR Perimeter Frame Kit is the ultimate upgrade for your XR/CRF50. With new geometry, each and every kit is handcrafted by the master fabricators at BBR. The unique frame and swingarm design provides superior handling and eliminates the motor as a stress member of the frame. Broken motor cases and twitchy handling are a thing of the past! 100% engineered, machined, welded, heat-treated and tested in the USA.

- 6061 aluminum twin spar frame 2" longer than stock
- BBR Patented frame design
- 6061 Billet Adjustable Super-Comp™ Swingarm 5" longer than stock
- Blue/Medium and Red/Soft leverage blocks are included
- 8" of rear wheel travel utilizing a one-of-a-kind BBR SuperShock rear shock, custom-built specifically for the BBR Perimeter Frame. It is fully rebuildable, uses standard size valving shims and has a giant 16mm shaft. It also provides adjustable compression and rebound
- 1100lb. spring is standard with optional spring rates available
- Tapered steering bearings pre-installed for easy assembly
- Brushed aluminum finish
- Comes complete with MSO paperwork for easy registration

Frame Kit includes: frame, subframe, swingarm, shock, D2 exhaust, gas tank, footpeg mounts, carb manifold adapter, chain guide and BBR gas cap.

BBR XR/CRF50 Aluminum SuperPro Frame Kit™

BBR proven performance and value. Super light and super strong, the BBR SuperPro Frame can handle the most extreme conditions. It is 100% designed, tested, machined, welded and heat-treated in the USA. Tired of trying to get the 1970's mono-shock style suspension to work? This frame has the best XR/CRF50 rear suspension design available. High-quality, exclusive BBR SuperShock rear shock.

- 6061 aluminum frame 1" longer than stock
- 6061 Billet SuperComp non-adjustable swingarm 5" longer than stock
- 8.0" of rear wheel travel utilizing a one-of-a-kind BBR SuperShock rear shock, custom-built specifically for the BBR Super Pro. It is fully rebuildable, uses standard size valving shims, and has a giant 16mm shaft. Adjustable compression and rebound with 1100lb. spring being standard and optional spring rates available.
- Roto-blasted and anodized aluminum finish
- Tapered steering bearings are pre-installed for easy assembly
- Comes complete with MSO paperwork for easy registration

Frame Kit includes: frame, subframe, swingarm and shock.

BBR V3 MidSize Pro Perimeter Frame™

The MidSize Pro uses KLX110 Perimeter Frame geometry, forks, wheels, seat and plastic. What distinguishes this frame from the BBR 110 Perimeter Frame is that it utilizes a CRF50 based motor. You can have a mid-size chassis with a high-horsepower CRF50-based power plant. With today's advanced technology in CRF50 engines, you can achieve a superior power-to-weight ratio with the MidSize Pro™ from BBR Motorsports. This frame can be converted to fit a KLX 110 motor by simply changing a couple components.

- 6061 aluminum twin spar frame 1" longer than stock
- BBR Patented frame design
- 6061 Billet Adjustable Super-Comp™ Swingarm
- Blue/Medium and Red/Soft leverage blocks are included
- 8" of rear wheel travel utilizing a one-of-a-kind BBR SuperShock rear shock, custom-built specifically for the BBR Perimeter Frame. It is fully rebuildable, uses standard size valving shims and has a giant 16mm shaft. It also provides adjustable compression and rebound with optional spring rates.
- Tapered steering bearings pre-installed for easy assembly
- Brushed aluminum finish
- Comes complete with MSO paperwork for easy registration

Frame Kit includes: frame, subframe, SuperComp™ swingarm, shock, D2 exhaust, gas tank, footpeg mounts, brake pedal, kickstarter, side panels, chain guide and BBR gas cap.

Daytona 119 DOHC Performance Engine Kit

Daytona engine components have proven to provide the most advanced technology in horsepower & reliability. Derek Costella's Daytona-powered BBR Mid-Size Pro™ propelled him to many national event wins including the prestigious Las Vegas MiniMoto SX. Daytona components can be found on many of BBR's factory race team bikes, and are excellent choice for anyone seeking the perfect balance of race winning power and rock solid durability.

410-HXR-5505	XR/CRF50 00-Present	\$2999.95
--------------	---------------------	-----------

Daytona 5-Disc Transmission Kit

These purpose built race transmissions are equipped with a full manual clutch with reduced weight on the end of the crank, creating a more responsive fast revving motor. Extremely durable heavy duty clutch designed to withstand the torque of high horsepower motors. The gear ratios are race oriented and engineered for higher horsepower and faster speeds. BBR recommends 3-speed transmissions for 10" wheel applications and 4-speed transmissions for 12" applications including BBR's mid-size pro.

BBR 120cc Big Bore Kit w/Cam

BBR Motorsports celebrates one of the best selling dirt bikes of all time with this high-compression 120cc Big Bore Engine Kit for the XR/CRF 100. Increased displacement, higher compression and large cooling fins enhance the performance and longevity of the motor. This is the only XR/CRF 100 bore kit that matches new rocker arms perfectly to the new high performance BBR cam shaft. This kit is ready to go and bolts on with no case boring required. Dyno tests show more than 2HP gain with this kit.

411-HXR-1001 | XR/CRF100 93-Present | \$299.95

- Increased displacement
- High compression
- High performance camshaft
- New rocker arms and adjusters

BBR Aluminum Folding Shift Lever

Forged aluminum with knurled steel folding tip. Stronger and lighter than the stock shift lever. Ti anodized finish. OEM quality.

537-BBR-1005 | XR/CRF80/100 85-Present | \$39.95

Lightweight Aluminum Rims

Exclusive high-quality BBR product. Lighter and stronger than stock. Lace up using stock hub and spokes. Available in 16" rear and 19" front, in your choice of colors.

16" Rear Rims

Silver Rim	389-YTR-1231	XR/CRF100	94-Present	\$109.95
Black Rim	389-YTR-1211	XR/CRF100	94-Present	\$109.95

19" Front Rims

Silver Rim	389-YTR-1232	XR/CRF100	94-Present	\$119.95
Black Rim	389-YTR-1212	XR/CRF100	94-Present	\$119.95

BBR Aluminum Chain Guide

Fully wraps the chain to guide it onto the rear sprocket; CNC machined; Stainless steel hardware; HDPE plastic buffer. Saves expensive engine cases. Anodized finish with BBR logo.

Black	340-HXR-1011	XR/CRF80/100	85-Present	\$69.95
Gold	340-HXR-1001	XR/CRF80/100	85-Present	\$69.95

BBR Fork Springs

Custom-developed by BBR for adult riders and fast kids. Preset and stress-relieved for long life. Another race-proven BBR product. Fits stock forks.

650-HXR-1005	XR/CRF100	85-Present	\$79.95
--------------	-----------	------------	---------

BBR Shock Spring

Custom-wound from aircraft-quality spring steel. Tough powder-coated finish. An important component in the CRF suspension package. Fits stock shock.

660-HXR-1005	XR/CRF100	85-Present	\$89.95
--------------	-----------	------------	---------

BBR HD Clutch Springs

Race proven by BBR. Works with stock clutch pack for longer life and less slippage.

410-HXR-1005	XR/CRF100	93-Present	\$24.95
--------------	-----------	------------	---------

BBR Pro Series 4 Pegs

Cast stainless steel for high strength and durability. Wider footpeg platform for better support. HD pins available separately.

Pegs	530-IMS-1001	XR/CRF80/100	93-Present	\$95.95
HD Pins(2)	541-HXR-5001	XR/CRF80/100	93-Present	\$19.95

Tall Seat Foam w/Cover

Increases seat height for taller riders. Comes complete with tall foam and solid black non-slip seat cover.

715-HXR-1001	XR/CRF80/100	01-Present	\$99.95
--------------	--------------	------------	---------

BBR 26mm Carburetor Kit

26mm Keihin carburetor complete with manifold adapter, throttle assembly, throttle cable and extra jets for fine tuning.

420-HXR-1001	XR/CRF100	93-Present	\$299.95

Attention to detail. Billet-machined 6061-T6 aluminum gas cap. A must-have for any modified bike.

110-HCF-1204	CRF150F/230F 03-Present	\$69.95
--------------	-------------------------	---------

BBR Billet Linkage

CNC machined from 6061-T6 aluminum. Increases seat height 1" on CRF150F and 1/2" on CRF 230F improving cornering. Includes needle bearings and seals.

625-HCF-1501	CRF150F/230F 03-Present	\$149.95
--------------	-------------------------	----------

CRF 150R

BBR CRF150R Aluminum Perimeter Frame Kit™

Made from 6061-T6 Aluminum, this heat-treated, hand-built perimeter frame kit is lighter and stronger than the stock frame. This frame kit is precision-crafted by BBR's top fabricators and once again raises the bar for quality and performance. The computer-designed frame provides increased lateral stiffness which translates into more precise tracking and improved cornering. High-strength aluminum radiators have been designed to lower the center of gravity creating better balance and maneuverability.

This kit works with OEM, BBR and many other after-market exhaust systems and uses the following OEM CRF150R parts: motor, suspension, rear swingarm, plastic, wheels, sub-frame, seat, foot pegs, air box, etc...

350-BBR-1012	CRF150R 07-Present	\$2999.95
--------------	--------------------	-----------

- CNC machined billet head-tube, side spars, shock tower, frame cradle and motor mounts
- BBR frame geometry
- BBR high-strength, high-flow, low profile aluminum radiators (by Fluidyne)
- Custom low-profile BBR gas tank
- Removable foot-peg brackets
- BBR graphics
- BBR billet gas cap

*Frame Kit Includes: BBR "Chrome" Graphics Kit

The BBR "Chrome" Graphics kit is constructed of 15mil vinyl and ultra strong 3M adhesive for first rate appearance and durability. The kit includes graphics for: (shrouds, front fender tip & sides, rear fender, small side panel accent and numerous other decals.)

BBR/Monster Energy
Factory Rider

BBR Billet Aluminum Sprocket Cover

CNC machined from lightweight 6061-T6 aluminum, this anodized red billet sprocket cover is a must have item for any serious 150R rider.

405-HCF-1642	CRF150R 07-Present	\$69.95
--------------	--------------------	---------

Galfer Wave™ Rotor

Galfer Wave rotors are laser cut and made of a unique high carbon 420 stainless steel material that has been pre-heat treated and parallel double disc ground to assure perfect flatness and the most efficient contact surface between pad and rotor. Improved lever feel and feed back allow the rider to get much stronger and progressive braking. Wave rotors are also great for keeping mud off the surface friction plate, allowing for the brake pads durability to be extended in muddy conditions. (Self-cleaning action) Lighter than the original OEM rotors.

Front	550-HCF-1601	CRF150R 07-Present	\$129.95
Rear	550-HCF-1602	CRF150R 07-Present	\$129.95

BBR Aluminum Kickstarters

Add to the trickness of your 150R with one of BBR's aluminum kickstarters. A true hand crafted "works part". The billet version is CNC machined from a solid block of 7075 to a jewel like finish. BBR also offers a forged 7075 version. Both kickstarters are lightweight and offer an improved boot platform and mount to the OEM knuckle.

Forged	130-HCF-1602	CRF150R 07-Present	\$89.95
Billet	130-HCF-1601	CRF150R 07-Present	\$169.95

Front Sprocket

This countershaft sprocket is manufactured from Pro quality chromoly steel approaching 200,000 PSI yield. Case hardened, finished with electroless nickel plating. For use with 428 chain.

385-HCF-1815	428 15T	CRF150R 07-Present	\$32.95
--------------	---------	--------------------	---------

Lightspeed Carbon Fiber Glide Plates

This ultralight upgrade protects the engine cases and gives a works bike look. Available for both stock and perimeter frame CRF150R machines. Bolts on in minutes. Available for both stock CRF 150R frames or BBR Perimeter Frames

Additional patents pending

BBR KLX/DRZ110 V3 Aluminum Perimeter Frame Kit™

Want the ultimate KLX or DRZ110? The BBR V3 Aluminum Perimeter Frame Kit is the trickiest frame money can buy. Utilizing a patented BBR design, this race ready frame and adjustable swingarm eliminates the motor cases as a stress member of the frame while providing unsurpassed strength and performance from superior craftsmanship. The same frame used by Derek Costella to capture the AMA #1 plate at the MiniMoto SX in Las Vegas. 100% engineered, machined, welded, heat-treated and tested in the USA.

- 6061 aluminum twin spar frame 1" longer than stock
- 6061 BBR billet adjustable SuperComp swingarm 2.5" longer than stock
- Blue/Medium and Red/Soft leverage blocks are included
- 8.0" of rear wheel travel utilizing a one-of-a-kind BBR SuperShock rear shock, custom-built specifically for the BBR Perimeter Frame. It is fully rebuildable, uses standard size valving shims and has a giant 16mm shaft. It also provides adjustable compression and rebound
- Tapered steering bearings pre-installed for easy assembly
- Brushed aluminum finish
- Comes complete with MSO paperwork for easy registration
- 1100lb. spring is standard with optional rates available

Frame Kit includes: frame, subframe, shock, D2 exhaust, gas tank, footpeg mounts, brake pedal, side panels, chain guide and BBR gas cap.

BBR Front Disc Brake System for Marzocchi Forks

Tired of those spongy and poor performing Formula brakes that came with your Marzocchi Fork kit? BBR has the answer. A real motorcycle brake system featuring a floating caliper and full size master cylinder. These kits are available in a few variations depending on your use. From a complete kit including a billet hub to a simple brake upgrade kit. This is a must have for any serious racer. Call BBR for details.

BBR E-6™ Front Fork Kit

Conventional wisdom. BBR E-6 forks are designed and purpose built for adults and fast riders. A conventional style fork offering a full 6" of travel. The E-6 Fork features dual bushings, chrome-moly fork tubes. Kits include: E-6 fork set, and extended brake cable. Options include: Complete BBR handlebar kit. This kit can be installed with stock tripleclamps.

BBR Damping Rod Set

BBR damping rods are manufactured from high-strength steel. Slower rebound and compression damping. Increases ride height and travel by 1".

634-KLX-1101	KLX/DRZ110 02-Present	\$89.95
--------------	-----------------------	---------

BBR U-Flow™ Air Filter Kit

BBR Motorsports has developed a completely new intake device for the KLX 110. The kit boosts horsepower and throttle response by creating an air chamber between the filter and the carb. The U-Flow Air Filter kit also turns the filter around so it faces backwards, keeping it out of the dirt and mud that comes off the front wheel. Many KLX 110 motors have incurred damage from dirt coming in the carb due to its forward facing filter orientation. Will fit stock, 26mm and 28mm carbs.

430-KLX-1110	KLX/DRZ110 02-Present	\$129.95
430-KLX-1110	Filter Only	\$19.95

BBR Rev Box

Developed by BBR to replace the CDI unit for enhanced power curve. No rev-limiter for optimum performance. Hotter initial spark promotes easy starting.

451-KLX-1101	KLX/DRZ110 02-Present	\$89.95
--------------	-----------------------	---------

BBR Billet Aluminum Brake Pedal

CNC machined billet aluminum for the ultimate in strength and appearance. Red anodized tip is replaceable and adjustable for rider preference. For stock frames with drum brakes.

120-KLX-1141	KLX/DRZ110 02-Present	\$169.95
--------------	-----------------------	----------

BBR Forged Aluminum Kickstarter

High strength forged aluminum kicker paired with a forged steel knuckle. Great for stock or fully modified motors. High quality and extremely strong.

131-KLX-1102	KLX/DRZ110 03-Present	\$129.95
--------------	-----------------------	----------

BBR Billet Gas Cap

This billet 6061-T6 aluminum gas cap is CNC machined for a precision look and comes with an anodized breather tip.

Kitaco SE-4-Valve Big Bore Kits (160cc & 143cc)

Kitaco engineers designed a brand new SOHC 4-valve head that produces exceptional horsepower and is available in two displacement packages. A 160cc version and a very potent 143cc version. Key features of this new head design include: centered spark plug location for superior combustion efficiency, Pent Roof combustion chamber design and the use of Y-style slipper type rocker arms. This rocker arm design is lighter weight than typical screw type and runs with less friction. A forged, 60mm piston with MO S2 coating is matched to an aluminum cylinder with a plated aluminum sleeve. A 56mm stroker crankshaft is then used to create a displacement of 160cc while the stock crankshaft is retained for the 143cc. The 160cc version is the same engine kit used by the BBR Race Team to dominate the MM12E class. Unbelievable Performance!

Also available are money saving Upgrade kits. For those of you that already have Kitaco's 143 SE bore kit, these kits allow you to upgrade your existing kit to the complete 160cc or 143cc 4-Valve Big Bore Kit. Simply continue to use your cylinder, cam chain and spark plug.

Takegawa Primary Drive Gear

Primary drive gears replace (OEM Part #10395A) and completely eliminate the stock clutch housing. Designed to be used, instead of the "Primary Clutch Removal tool" for high HP engines. Eliminates flywheel weight and makes the bike rev faster.

410-KLX-1155 | KLX/DRZ110 03-Present | \$109.95

BBR KLX/DRZ 110 D-Comp™ Camshaft

BBR has developed an exclusive camshaft with a decompression mechanism. The decompression device releases cranking pressure during start up. Once started, full compression is restored. This new D-Comp™ camshaft will allow most bikes to actually be started by hand. Now there is no reason to hesitate to use a huge bore or a stroked crankshaft.

BBR Forged Output Shaft w/1st Gear

Developed for the BBR race team, this forged shaft is much stronger than stock, and will hold up well with high-horsepower motors.

411-KLX-1150	KLX/DRZ110 03-Present	\$169.95
--------------	-----------------------	----------

BBR Performance Camshaft

Maximize the 110 power range. Enhances mid- and top-end power with easy install. No core required. Use in stock motor or in addition to the 130cc and 160cc bore kits. Fits stock head.

411-KLX-1120	KLX/DRZ110 03-Present	\$129.95
--------------	-----------------------	----------

Hydraulic Clutch Conversion Kit

A must have for any serious racer. This kit allows the sluggish stock auto-clutch to be converted into a semi-manual clutch set-up. Results are: better starts and quicker exit speed from corners. Installation requires the use of HD clutch springs (410-KLX-1106). Add Clutch Removal Spacer (410-KLX-1115), and convert into a full manual clutch set-up. Races are not won with an auto-clutch.

555-KLX-1101	KLX/DRZ110 03-Present	\$319.95
--------------	-----------------------	----------

BBR Motorsports
Custom Frame KLX 110
Aluminum Perimeter Frame

BBR HD Valve Springs

Order Online

Go to www.bbrmotorsports.com and click the product button on the home page. Use the directory on the left to select the make and model of your motorcycle. Select the items and add to your shopping cart. Orders completed online before 12 PM Pacific Time will be shipped the same business day. Orders completed after 12 PM Pacific Time will be shipped the following business day. Secure shopping and checkout provided by Google Checkout which accepts Visa®, Mastercard®, American Express® and Discover®.

Telephone Orders

Phone orders can be placed Monday through Friday, 7 A.M. - 5 P.M. Pacific Time. Give us a call, toll free at (888) MOTO-BBR (888) 668-6227, or at 253-631-8233. All payments must be made in US currency only. Orders placed before 12 PM Pacific Time will be shipped the same business day. Orders placed after 12 PM Pacific Time will be shipped the following business day. BBR accepts Visa®, Mastercard®, American Express® and Paypal for phone orders. For mail-in payment BBR will accept Cashier's Checks and Money Orders.

Fax Orders

Fax orders may be placed 24 hours a day at 253-631-4260. Please include the following information on all fax orders: Name, shipping address, billing address, complete credit card number including expiration date and 3 digit security code, preferred shipping method, e-mail address and the best contact phone number for any questions regarding your order.

Shipping

A street address is required for all shipments (UPS cannot ship to a PO Box). Ground, Next Day Air, 2nd Day Air, and 3 Day Select services available. Other shipping methods are available upon request. Custom bikes and shipments to be delivered outside the continental US require extra attention. Please ask your BBR representative for details. Please check our web site or call for more information on shipping and handling charges.

International Orders

BBR gladly accepts international orders by phone, fax or email. Please contact a BBR representative at (253) 631-8233 or via e-mail at sales@bbrmotorsports.com for details. We look forward to hearing from you.

Dealers

BBR sells dealer-direct to fine motorsports dealers everywhere. Dealer inquiries invited. Dealer may pay via Visa, Mastercard, American Express®, PayPal and COD. COD payments must be made via company check. A \$35 fee will be charged on all returned checks. BBR products are also available through major motorsports distributors including Parts Unlimited, Parts Canada, Tucker Rocky and Western Power Sports.

Returns

BBR will gladly accept returned product providing the item was purchased directly from BBR and returned within 30 days from the date of the original invoice. Customers must obtain a return-authorization number (RA#) by calling BBR at (253) 631-8233 prior to return shipping. All items must be returned in the original package and in new condition. A restocking fee of 20% will apply. Returns sent COD will not be accepted. No returns will be accepted on custom products (frame kits, custom bikes, custom parts, engine work, etc).

Warranty

Except as stated, BBR makes no warranties, expressed or implied with respect to its products, their merchantability, or fitness for a particular purpose. In no case shall BBR be liable for incidental or consequential damages. All sales are subject to BBR's Standard Terms and Conditions of Sale, a copy of which is available upon request or available for review at BBR's web site: <http://www.bbrmotorsports.com>
