

2004 Product Guide

Welcome to **BBR MOTORSPORTS**

At BBR, we are dedicated to hand-crafting the most innovative 4-stroke off-road motorcycles in the world. Our reputation has grown nationally and internationally. We have fabricated custom bikes for top motocross stars, celebrities, and corporations who want the very best that money can buy.

In the spirit of our BBR race bikes, we now offer components for many popular production models. Each component is fabricated with the attention to detail that you expect from BBR. Everyone here at BBR understands that innovation is what separates us from the masses. We understand the importance of proper frame geometry, precision tolerances, and use of metals and materials that provide the highest quality and performance. We take pride in the fit and finish of every BBR product, and always make sure that function comes first.

Fabrication of these bikes and parts is an important part of our business, but we haven't forgotten where it all started. We grew up on XR75's and still consider

them to be one of the greatest motorcycles ever built. While other kids played baseball, we spent our time chopping and grinding on motorcycles in the shop behind our parents house, then rode until dark every day we could. To this day, our true passion is still the thrill of riding.

Our goal is to continue to build great bikes and great products that maintain that same kind of fun factor. We are excited about our new products and hope they add some passion to your bike. Whether it's winning a National Event, racing with your buddies, or just spinning laps in the back yard with the kids, BBR has you covered. For all those who love the sport as much as we do, this 2004 BBR Product Guide is dedicated to you.

See you at the races!

Most orders will ship same day if called in before noon pacific time. We maintain a large inventory of BBR Products for same day shipping. Custom orders may take two weeks or longer. Give us a call and we'll give you the details.

Shipping:

We prefer to ship via U.P.S., so a street address is necessary (sorry, no P.O. boxes). We can also ship by Federal Express, but it often costs more. We only ship via USPS (standard US Mail Service) every other week. Using US Postal Service for shipment may cause at least a 2 week delay and will incur a handling fee (not less than \$15.00) in addition to actual shipping charges. Check our web site or call for accurate shipping and handling charges.

Payment:

All payments must be made in U.S. currency only. Send total amount by money order or personal check made payable to BBR Motorsports Inc.. MasterCard and Visa accepted. Minimum order: \$20.00. **Only credit cards issued by U.S. banks** and billing to U.S. addresses will be accepted.

International Orders:

All international orders, outside of North America, please contact your local White Brothers or Western Power Sports distributor.

Returns:

Returns on unused items may be accepted within 30 days, with original receipt. We charge a 20% restocking fee. If, for some reason, it is necessary to return a product to us, you will need a return authorization number. You may obtain one by writing or calling us with your purchase date and the original invoice number. No returns accepted without a RA.#. No C.O.D. returns will be accepted.

No returns will be accepted on custom products. (Frame kits, custom bikes, engine work, etc.)

Warranty:

BBR Motorsports Inc. makes every effort to ensure the highest quality craftsmanship in our products. We believe our designs to be the best compromise for weight, strength, and performance possible. Regardless, off-road motorcycles are extremely high wear. Any motorcycle part can be broken if abused. BBR Motorsports cannot control the use or installation of any of its products. As a result, there is NO warranties on any product manufactured or sold by BBR Motorsports. In addition, BBR Motorsports will not be liable for any damages or injuries that result from the use of its products. BBR® is a registered trademark of BBR Motorsports Inc®. All terms, specs and pricing are subject to change without notice. Be smart - always wear a helmet.
